

2012 Natural and Mathematical Sciences Undergraduate Research Forum

2:00-6:00 pm, April 20, 2012, Physics Research Building atrium

- Research that has been or will be presented in another venue (e.g. the Denman Research Forum) is welcome; students may submit the same abstract for both events.
- By submitting an abstract, the student agrees to present a poster about the project at the NMS Forum.

Abstract submission guidelines (these are essentially identical to the guidelines for the Denman Research Forum)

- Abstracts should be uploaded to the NMS Undergraduate Research Forum registration site by 5:00 pm Friday, April 6, 2012. Word, rtf, or pdf files are preferred.
- The abstract title should be at the top of the page.
- The undergraduate student presenter should be listed as the first author, directly underneath the title. You may include other co-workers and your faculty advisor as co-authors.
- The main text of the abstract should be at least 150 words and no more than 300 words long, in a single paragraph with no headings or citations.
- The purpose of the abstract is to provide a concise summary of your project.
- More information about abstract preparation and examples from past Denman Forums are available at the Denman web site:
<http://denman.osu.edu/describe.aspx>
- Review your abstract with your faculty research advisor before you submit it.
- Abstracts will be evaluated by NMS faculty and you will be notified by email whether your abstract is accepted, no later than April 13.
- Please contact Dr. Caroline Breitenberger (breitenberger.1@osu.edu) with any questions.
